Additional information:

- high sound level and small dimensions at the same time
- simple and easy to install
- small size and flexible cables allow installation even in difficult to reach places
- type of sound emitted by sirens is clearly associated with an alarm (warning) and cannot be ignored by a person directly in the danger zone
- highest quality and durability as buzzers are produced from the best commercially available components

Original Polish product - you are guaranteed that you will not receive a cheap, low quality counterfeit.
